

## Soundproof Folding Partition ANC-88 STC 44

ANC-88 rigid panel acoustical folding partitions surfaced with wood grain or textured vinyl finishes cost no more than vinyl fabric accordion partitions, yet they deliver so much more. Clean, straight contemporary lines... strong, durable laminated panels that outlast ordinary partitions... a fabulous collection of affordable surface options including wood veneers, carved surface detailing, high pressure laminates and luxurious wall carpet... and the highest acoustical ratings of any accordion partition made.

### *ACOUSTICAL PERFORMANCE*

ANC-88 accordion partitions are offered with two laboratory certified sound transmission class ratings of STC 42 and STC 44. And an optional noise reduction coefficient of N.R.C .70 is available on one or both sides of STC 42 rated models. To create quiet spaces, ANC-88 partitions employ exclusive patented hinging systems that acoustically decouple the panels on one face of the partition from those on the other face. This makes possible the structural, durability and appearance advantages of rigid laminated panels while achieving high sound isolation.

Soundproof Folding Partition ANC-88 Product Features

Machine laminated panel surfaces  
Available to 18 feet (5512mm) high  
Sound ratings of STC 44 and STC 42  
Manual or electrical operation  
Strong, durable laminated 8 inch (200mm) wide panels

## **Accordion Door Applications**

ANC Soundproofing partitions are installed throughout all types of educational institutions, convention centers, hotel conference rooms and meeting rooms, medical and religious facilities, corporate offices, training facilities, restaurants and lounges, apartment complexes and homes worldwide. This is just to name a few.

## **ANC-88 QUALITY CONSTRUCTION**

Panels are joined and edge sealed with Soundproof Folding doors unique dual-walled, lifetime Memory Action vinyl hinges that acoustically dampen the panels and protect their edges from marring scrapes and blows. Top and bottom Sonicsweep seals, Ceilinguard head trim and deep nesting end posts with dual row vertical sound seals and positive latches all add to superior acoustical performance.

## **FUNCTIONAL ELEGANCE**

The natural look of genuine wood or the attitude of color and texture are the possibilities of ANC-88 models. Panels constructed of rugged high density particleboard are machine laminated with select wood veneers, high pressure decorative laminates and textured or wood grain vinyls. A soft statement with any of 40 contemporary contract interior colors can be achieved with Ribtex® wall carpeting or Woventex® or Tek-Wall® 1000 panel fabrics. Custom orders of Customer's Own Materials or wood stained finishes are also available for special situations. Memory Action® vinyl hinges may be specified to harmonize or highlight the selected panel finish. End post trim and hardware in bronze or natural finish is standard.
